

National Health and Safety Performance Standards

Conversion Table - First Edition to Second Edition

The numbering system for the standards was changed in the second edition to ensure the safety of children by clearly differentiating old standards from those in the new edition. In the second edition, the letter codes for each chapter used in the first edition, have been replaced by numbers such as 1. for Chapter 1; 2. for Chapter 2 and so on. To determine the 2nd Edition and location for Standards that appeared in the first edition of *Caring for Our Children*, you may look up the old number in the left hand column. The new number is in the right hand column. An example: Center child:staff ratios was ST 002 in the first edition, it is now 1.002 in the second edition.

Many standards were merged and thus there are fewer standards in the second edition. If a standard was totally deleted and not merged into another standard(s), the table designates such by the word DELETED in the second column. See Appendix DD for the Conversion Table from Second Edition numbers to First Edition numbers.
